ODP 0-880
3 July 1980

MEMORANDUM FOR: Deputy Director for Administration

FROM: Bruce T. Johnson
                 Director of Data Processing

SUBJECT: ODP Report for Week Ending 2 July 1980

EXCOM Candidate Project

     The Office of SIGINT Operations has initiated a request
for a new project (Systems Support) that will consume a
significant portion of the VM system capacity. Preliminary
estimates of yearly projected costs for this project indicate
that it will easily exceed the minimum $250,000/three year
cost threshold. As a result, a memorandum has been prepared
for the OSO ADP Control Officer requesting the necessary
forms and paper work required for EXCOM review. ███████   STATINTL

Support to the Community

     The 4C Working Group met on 24-25 June and held a
Systems Requirements Review for the 4C System Specification.
All questions that could be resolved by the group were
resolved; several questions were forwarded to the APEX
Steering Committee for their action. The review provided
the basis for publishing the baseline edition of the 4C
System Specification on 27 June and its distribution to
group members for formal approval. ████   STATINTL
